ARTHUR BRISBANE

W. C. Foster of Norfolk, Va., is dead and his wife and a daughter, Mrs. Mabel Rossano are at City hospital as a result of an automobile accident on the Harding highway, one mile east of Meeker, at 8 o'clock this morning.

Mr. Foster died at 12 o'clock at the hospital. Death was said to have been due to a skull fracture. No information regarding the accident victims could be obtained from hospital attendants.

Mrs. Foster and Mrs. Rossano are suffering from minor cuts and bruises. Their condition is not regarded as serious.

The accident occurred when the Foster car, a Chrysler sedan driven by W. C. Foster, son of the injured man, was crowded off the highway into a ditch at the side of the road, it was said by another car attempting to pass them. Both automobiles were traveling towards Meeker.

Young Mr. Foster and a third woman occupant of the car escaped uninjured. The others were taken to City hospital in two ambulances from C. E. Curtis & Co.

The Foster car, almost a total wreck, struck a culvert and tree before turning over into the ditch. Name of the driver of the second car in the accident could not be learned.

The petit jury which opened the September term in common pleas court this morning was adjourned by Judge George B. Scofield until Sept. 29 as a result of scarcity of cases to come before that body.

Three persons indicted by the grand jury a week ago all entered pleas of guilty and were sentenced, thus relieving the court of the necessity of trying their cases.

The case to be tried on Sept. 28 will be the condemnation suit of Marion county against the Columbus, Delaware & Marion Electric Co. The jury will be called to determine the extent of damage to the electric company for the crowding to be put over the company's trucks on the White Oak rd. extension.

The condemnation proceedings are expected to end the court fight through which the crowding case has dragged for several years. The case, starting in the common pleas court here ended in the state supreme court when that court ruled against the electric company. The electric company favored an overhead crowding rather than a grade crossing.

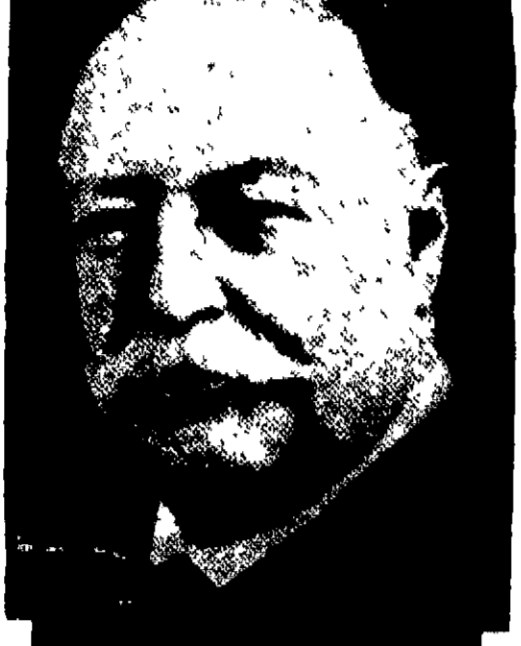

VETERANS MEET
Reunion of 17th Regiment Opens in Columbus Tonight
Columbus, Sept. 17—Mobilized for their second reunion, veterans of the 17th regiment, U. S. Infantry, were reuniting today of the days of '98 when they battled Spaniards, preparing for the formal opening of the reunion here tonight.

About 100 veterans were registered. They were scheduled today to visit Fort Hayes, their training camp before they sailed for Cuba and the Philippines. A luncheon will be held for them in the mess hall at the fort.

SEEK INTERVENTION
Conductors, Trainmen Fail To Agree on Scale
Chicago, Sept. 17—Appeal for presidential intervention is being prepared here today by officials of the Railroad Brotherhood following the failure of more than 70,000 railroad conductors and trainmen and representatives of 53 western railroads to agree on an increased wage scale.

After two weeks of negotiations and meetings in which the United States board of mediation participated, the train service employees and the committee representing the railroads appeared to be no nearer an agreement than the day the wage parity started.

71 TODAY

Today marks the seventy-first birthday anniversary of William Howard Taft, chief justice of the U. S. supreme court and former president of the United States. He is spending the day with friends and members of his family at the Taft summer home, Murray Hill, Canada. Many messages of congratulation were received.

FEAR LOSS OF LIFE IN CITIES ON EAST COAST

Greatest Danger Reported To Center at Palm Beach and Fort Pierce

Jacksonville, Fla., Sept. 17—Grave fears were felt here today of possible loss of life in Palm Beach and Fort Pierce, two of the largest Florida east coast cities which bore the brunt of the West Indian hurricane Sunday.

Although relief trains were reported to have left for Palm Beach from Miami late last night, no direct word was received from the isolated city as to the extent of the havoc wrought by the hurricane.

Many Injured
Indirect reports, however, from several sources—railroad and amateur radio operators—told of many injured, with possible loss of life in the Palm Beaches and Fort Pierce.

One report, as yet unconfirmed, said that a large county hospital in the center of West Palm Beach was demolished by the 125-mile-an-hour gale, and that some of the patients may have been killed. Still others were reported to have been injured.

MAY POSTPONE TRIAL OF PAUL JAWARSKI
Slayer of Cleveland Patrolman Suffers Relapse Over Week-End
Cleveland, Sept. 17—The condition of Paul Jawarski, gunman, jail-breaker and killer, today made his murder trial scheduled for Sept. 22, problematical.

Jawarski, who was captured last Thursday after a gun battle in which he killed a policeman and wounded two other men, before he was himself wounded and captured, suffered a relapse over the week-end. Last night his condition required the administration of narcotics and today his recovery was considered doubtful.

Search for John Vandiner who, with Jawarski, shot his way out of the Allegheny county jail in Pittsburgh 10 months ago, while both were under sentence for first degree murder, still is under way.

A young woman who says she is the wife of one of Jawarski's pals was being questioned by police today. She was taken into custody yesterday and told police that her husband knew Jawarski in Detroit. Jawarski's wife, Mrs. Anna Jawarski, lived for a time with them in Detroit, she said. Her husband left for Detroit, she stated, Thursday night on leaving of the gun battle, to notify Jawarski's relatives.

Detectives also located an apartment in which they believe Jawarski, his wife, and another man lived while they were in Cleveland. The other man and Jawarski's wife occupied the city in a green automobile after the shooting, they say.

DEATH FROM CHIEF
Cleveland, Sept. 17—Mrs. Mary P. Westlake, 68, who died in a hospital here last night of pneumonia resulting from grief over the recent death of her husband, Federal Judge D. C. Westlake, will be buried in Marionburg, W. Va., it was announced today.

Judge Westlake was also buried in Marionburg, where both formerly lived.

Marion County Appeal Issued by Red Cross

An appeal for contributions from Marion county residents to aid in the relief of residents of the West Indies, victims of the hurricane which destroyed thousands of homes and devastated crops throughout the country last week, was made by B. R. Prichard, chairman of the Marion County chapter of the Red Cross, today.

Chairman Prichard's appeal was issued following a request for funds from Marion county made by John Barton Payne, national chairman of the American Red Cross, in a telegram to the local chapter office today.

In his request, Payne stressed the immediate need for food, shelter, medical supplies and emergency relief for the hurricane victims.

The Red Cross has taken charge of the relief work to the West Indies natives at the request of President Coolidge. An initial donation of \$50,000 from national funds has been made. A trained disaster staff of the American Red Cross is now reported to be on its way to the island.

Contributions can be made at the Red Cross office at City hall and at the local banks and building and loan companies. Chairman Prichard announced that no definite quota has been announced for Marion county as yet.

TRAFFIC DEATHS ON INCREASE OVER OHIO

Many Escape Automobile Crashes with Slight Injuries

A slightly higher trend in fatalities over the 48-hour week end period was noted today in a state-wide check. A strange phase was revealed in the compilation of traffic deaths when it was found that although many automobiles filled with holiday merry-makers figured in collisions and other accidents, the number of those escaping with slight injuries far overshadowed those who met death on the congested highways.

Among those listed as week-end fatalities were:
Dayton: Charles Walker, 35, was killed when his truck was struck by a Big Four passenger train here.

Hamilton: Hamilton Dwyer, 30, was fatally injured by a tractor car near here.

Ashtabula: Richard Fisher, Ashland, was killed when truck was hit by a Pennsylvania train. John Roberts, Englewood, was killed when struck by a freight engine near Ashtabula.

Sabina: George Eckel, 17, drowned in a stone quarry near here.

New Philadelphia: Elmer Seibert, 45, this city, instantly killed when his auto collided with another car near here.

Columbus: Edwin Bolon, 5, fatally injured when he fell from a trolley into the path of car said to have been driven by William McGowan.

Cleveland: Andrew Trombini, 19, Cleveland, killed when an automobile in which he was a passenger overturned near Hudson, O.

Cincinnati: Louis Brandt, 40, and wife, killed when their car swerved over embankment near Butler, Ky.

SMITH STARTS ON TWO-WEEK TOUR OF WEST

Special Train Carries Presidential Nominee into C. O. P. Territory

8 STATES ON SCHEDULE

Election Result May Hinge on Result of Trip, Is Forecast

BY GEORGE R. HOLMES
Star Staff Writer

Aboard Governor Smith's special train, Sept. 17—Gov. Al Smith headed westward today on the greatest political adventure of the campaign.

Upon his success or failure in the Rooseveltian task of "winning the west" may conceivably hinge the outcome of the presidential race.

With characteristic courage and audacity, the New York governor has set out to carry his fight into territory that, if not inimical to his candidacy, at least is traditionally Republican.

The man in the brown derby from the sidewalks of New York is going west to talk progressivism to audiences in eight states.

Invading Graft Belt
He is going to outline a program of agricultural relief Tuesday night in Omaha, the heart of the graft belt. He is going further than the Republicans have yet been willing to go in meeting the demands of the farm organizations who fought an bitterly and so tellingly for the McNary-Hughes bill. And thereafter audiences in Oklahoma, Colorado, Wyoming, Montana, North Dakota, Minnesota and Wisconsin, are going to hear from his lips his case and policies on water power development, transportation, the tariff, insurance, foreign and immigration, conservation and prohibition.

It is the third time that Governor Smith has been west in his life. Twenty years ago he was a delegate to the Democratic convention at Denver that nominated William Jennings Bryan. Eight years ago he went to San Francisco and witnessed the nomination of James M. Cox in a convention which saw his name projected into the national political arena for the first time. Save for these two trips, Governor Smith has lived his entire political life east of the Hudson river. This trip is truly his greatest adventure.

In Progressive West
The schedule has been so arranged as to take him through the heart of the so-called "progressive west," and the so-called "LaFollette country." He will close his two weeks tour in "Fighting Bob's" own state of Wisconsin in the night of Sept. 29.

The big prize of the trip is frankly conceded by Democratic leaders to be the LaFollette vote of 1924. They believe it will be theirs.

MARION GETS \$8,097 FROM GASOLINE TAX

Kenton, Galion, Bucyrus and Delaware Benefit in Distribution

Columbus, Sept. 17—The state auditor's office today completed distribution to the municipalities throughout Ohio their share of the state gasoline tax. The distribution was on the basis of \$1 for each registered auto in the municipality. Amounts distributed include: Marietta, \$4,008; Marion, \$8,097; Galion, \$2,230; Bucyrus, \$2,781; Iola, \$2,058; Cincinnati, \$98,290; Kenton, \$2,082; Dayton, \$43,291; Zanesville, \$57,874; Mansfield, \$8,704; Shelby, \$1,724; Canton, \$25,806; Alliance, \$5,974; Hamilton, \$6,504.

SEEK GUNMEN
Athens, O., Sept. 17—Athens county officials today are seeking the occupants of an auto who last night fired into a group of non-union miners at Greens Run, near Glouster, and wounded James Hendricks, 40, Pomeroy.

His passengers included F. C. Watters, Marion Ford distributor; Mr. and Mrs. L. B. Timmerman and W. A. Davidson of Lima, Leo J. Berns of Washington, D. C., and Murray Powers, managing editor of The Marion Star. Watters and Powers motored to Lima early today to make the trip back in the plane.

The ship will be here for several days, Mr. Watters announced. Passengers will be carried on 25-mile trips about the city.

BEGINS DUTIES

The Rev. S. F. Porter, pictured above, preached his first sermon as pastor of Emmanuel Baptist church at service here yesterday.

Mr. Porter came here from Prospect last Wednesday to succeed the Rev. Earl L. Holliday. A former evangelist, Mr. Porter completed his first pastorate when he concluded a year's service at First Baptist church, Prospect, before coming here.

NORTHEASTERN OHIO 'M. E. MEET OPENS

Extensive Speaking Program Arranged for Conference at Lorain

Lorain, Sept. 17—First arrival of the 1,500 pastors, laymen and prominent churchmen expected here for the seven-day conference of the Methodist Episcopal church of northeastern Ohio, which opens here tomorrow, were registering today.

An extensive speaking program has been arranged. Speakers include: Mrs. Mabel Walker Willebrandt, assistant U. S. attorney general, of New York; Dr. Ernest E. Cherrington, of the Anti-Saloon League of America; Dr. W. O. Thompson, former president of Ohio State university; Daniel Marsh, of Boston university.

Bishop Theodore M. Henderson, of the Cincinnati area, will preside and assignment of associates will take place at the final business session. A prohibition and law enforcement rally will be held next Sunday.

GHOULISH MESSAGE SPURS ON OFFICIALS

Search for Kidnaped Boy Centering in Melrose Park Section

Chicago, Sept. 17—"Would you know your own son's head if you saw it?" That is the latest ghoulish and cryptic message to be received by Frank Ranieri here today from the mysterious realm of Sicilian terrorists, who are holding his 10-year-old son, Billy, for a ransom of \$40,000.

The message was received by the distracted father while squads of heavily armed bureau detectives were searching the Melrose park section of Chicago in a list minute attempt to rescue the lad from his Mafia abductors.

One of the men held, Angelo Petrelli, authorities said, is Chicago's newest "communist" chief and actual head of the kidnaping plot. The other is Salvatore Mastranni, confessed "penman" for a black hand extortion ring. Struggling to shield their husbands from higher authorities of the Mafia.

SON DROWNS IN QUARRY, MOTHER IS NEAR DEATH

Sabina, Sept. 17—Distressed by the death of her son George Eckel, 17-year-old high school senior, drowned in an old stone quarry six miles west of here yesterday, Mrs. Eva Eckel was near death at her home here today suffering from heart disease.

A service at swimming, the youth had dived into the pool and was climbing over the bank when seized with cramps. He lost his grip and slipped back into the water. His body was recovered through, shortly recovered, reported a few hours later.

FURY OF GALE REPORTED TO BE UNABATED

Toll of Storm Unknown as Towns and Cities in Path Are Cut Off from Wire Communication

SWEEPS IN FROM WEST INDIES

Strikes with Greatest Force Over East Coast in Palm Beach Section, Is Belief; Headed Toward Gulf

BY INTERNATIONAL NEWS SERVICE
WITH an unknown toll of damage and destruction in its wake, the West Indian hurricane which blew up from the Caribbean swept with unabated fury today over the Florida peninsula and headed northwest toward the Gulf of Mexico.

Cities and towns in its path were cut off from communication and meager details filtering through did not estimate the loss of life or property, or the extent of the devastation.

The hurricane's greatest force as it passed over the East coast apparently struck the region lying between Fort Pierce, the Palm Beaches and Jupiter to the north. Tens of thousands of people were reported injured. Several persons were reported injured. Miami experienced a heavy wind, but no serious damage.

Wind Is Twirling
Towns and hamlets dotting the lower central portion of the state apparently were hard hit and reports indicated the hurricane's core, through the section at a velocity varying from 50 to 60 to 100 to 125 miles an hour. All possible efforts were being made to pierce the silence engulfing the stricken areas to determine the storm's toll.

Communication was paralyzed, roads were halted, and houses, bridges, trees and wires were blown down. A heavy rain was reported generally throughout the area.

The weather bureau declared the storm probably would not abate for another 24 hours, and would not finally blow itself out before 36 hours.

The storm center was over the Florida peninsula east of Tampa. An unconfirmed report to Jacksonville declared a hospital in West Palm Beach had been demolished, with possible loss of life.

A radio message received from Tampa, Fla., by an amateur radio operator in New Orleans declared the storm passed through Tampa at 10 miles an hour. Heavy property damage but no loss of life was reported.

"The disaster is the worst that ever occurred from a hurricane in the West," Turn to Page 2.

Relief Agencies Speed Up Operations
Washington, Sept. 17—Government agencies and the American Red Cross were in a feverish state of activity today organizing and putting into operation a stupendous relief program to care for the needs of the thousands of sufferers from the tropical hurricane that has laid waste to islands in the West Indies and now is tearing its way across the Florida peninsula.

The destroyer (Glimmer), placed at the disposal of the Red Cross by the navy department by direction of President Coolidge, is expected to arrive at San Juan, Porto Rico, today.

Aboard the Glimmer are Henry M. Baker, national director of emergency relief, and a staff of experienced relief workers from Red Cross headquarters here who will organize the activities in Porto Rico and the adjacent storm-swept islands.

Ready To Help Feed
Late tonight or early tomorrow morning a naval vessel will steam out of New York with 575 tons of foodstuffs. Turn to Page 2.

Wire Communication Silenced by Tempest
Washington, Sept. 17—A tale of death and destruction filtered in today from the few remaining wind-whipped posts of radio communication in the wake of the West Indian hurricane.

For the second time within two years the southeast coast of the United States was ripped by a destructive gale.

GALE TO LAST 36 HOURS, IS FORECAST

Weather Bureau Sees No Chance of Early Let-Up in Florida Storm

Washington, Sept. 17—The West Indian hurricane sweeping the Florida peninsula is "good for another 36 hours," weather bureau officials declared today.

"There will practically be no abatement of the intensity of the storm for 24 hours," they said. "It will, however, diminish slightly in fury after 24 hours, tapering down to normalcy or a little above it, at the end of 36 hours."

Tampa, in the opinion of the weather bureau, may possibly escape a severe lashing by the storm. It was pointed out the West Coast city is naturally somewhat protected from storm blowing from the east, and that early today wind velocity in Tampa was only 24 miles an hour. Barometer readings, however, were low.

The storm, according to latest reports in the bureau, was just east of Tampa, and moving in a northwesterly direction.

300 Dead and 300,000 Homeless
San Juan, Sept. 17—With death, destruction and ruin everywhere, Porto Rico figuratively forgot its scars today in a determined effort to keep the spirit of quietude and calmness, and to add their horror to the chaotic conditions created by the terrifying hurricane which swept the country.

Reliable estimates place the number who died in the hurricane at about 300. Between 200,000 and 300,000 persons are homeless. Property valued at about fifty million dollars was destroyed. Many towns are still isolated, roads are impassable and food and water are scarce.

The majority of the island's crops have been destroyed. Most of the coffee and fruit trees have been ruined. Sugar and rumming factories have been leveled to the ground.

Before the hurricane, a bumper sugar crop brought with it the hope of exceptional prosperity this year. New Porto Rico faces economic ruin.

Leading citizens have petitioned Governor Towner to take swift reconstructive measures. They are appealing for the requisitioning of all available supplies of food and its proper apportionment, and the drafting of all able-bodied men for employment on farms and public works so that reconstruction may go on smoothly and quickly.

Governor Towner has called a meeting for 10 o'clock this morning for the purpose of formulating plans for organized relief and reconstruction.

O'LEARY DELAYS TRIP TO FLORIDA

County Commissioners' Clerk Gets Message from Daughter in Storm Area

T. A. O'Leary, clerk in the office of the Marion County commissioners, suspended all plans to visit his daughter, Mrs. Fay Watson at West Palm Beach, Fla. when he received a wire from her this morning asking him to delay leaving Marion at the present time.

KEYSTONES TRIM EAGLES: 5 TO 2

BACON SCORES TWO RUNS IN NINTH WITH HOMER OVER FENCE

Local Team Gets Pair of Hits Off Dusky Columbus Hurler

BY KARI R. McELROY
Sports Editor, The Star
MARION'S revamped team of Eagles looked like any other outfit that has represented the city on the professional field so far this season when they were defeated by the Columbus Keystones, 5 to 2.

We would not call Walker a great pitcher but he was just good enough to hold the locals to two lone singles. Until the eighth inning it looked as though the locals were going through the contest hitless but Kook got lucky and smashed a single through short in the next to last frame.

Until the sixth it was a good ball game with neither team being able to score. In five innings the dusky Columbus nine were held to three hits by Bryant.

Start in Sixth
The Keystones opened up the sixth with two singles. Then a three-bagger by Kerner scored two runs, and on a play to first the hefty center fielder crossed the plate.

Hammond started off the ninth with a homer over left field fence. With two down Boggs singled through second. He stole second when Pina lost Pomeroy's tag. The last run was scored when Boggs went home on Walker's drive into left.

Little hopes were held by the Eagles to win the fray although the top of the batting order was up in the last of the ninth. Ray walked and Pomeroy fanned. Bacon got his first hit of the game by smashing a homer over center field fence scoring Marion's two runs.

Final, who was rated as a heavy hitting fielder, will probably be sent back to the bush leagues where he belongs after his performance yesterday. In four trips to the plate he managed to strike out on many times.

Bryant was far from being effective. He was touched for 11 hits but managed to keep most of them well scattered. He fanned nine men while Walker had eight strike outs to his credit.

The entire local team looked foolish when facing Walker's flutters at the plate. Pop flies seemed the order of the day and the Eagles did plenty of it.

Pirates Defeat Giants, 1-0 M'GRAW'S OFFICE HOURS CUT

ATHLETICS, YANKEES WIN AND A'S REMAIN HALF GAME BEHIND

St. Louis Cardinals Holding Two-Fray Lead in National League

BY LES CONKLIN

NEW YORK, Sept. 17.—Keyed up by the red-hot pennant races, two of the greatest pitchers in baseball—Lefty Grove and Larry Benton—faced in classic performances yesterday. Grove held Cleveland to four hits and won, 7 to 1, when the Athletics knocked Joe Slaughter out of the box in the sixth inning and scored six runs. Benton limited the slugging Pirates to two singles in eight frames, but both of them came in the same inning and the Giants lost, 1 to 0, because they couldn't hit Southpaw Fred Fustell in the pinches.

Benton's defeat was his own fault, at that, because he forced in the winning run by walking Big Poison Warner with the bases full. The Giants are now two games behind St. Louis and their nine-game winning streak is no more. Both the Cards and the Cubs were idle yesterday.

Fifty-thousand fans saw the Giants play, and 30,000 saw the Yankees beat the Browns in St. Louis, 7 to 5, thus holding on to their half-game lead.

Henry Johnson, who snapped Grove's 14 game winning streak in New York last week, was practically unhittable but was wild as a hawk and had to be quipped in the sixth after passing seven men. Buster Gehrig got his twenty-fourth homer and Koenig and Blue also hit for the circuit.

After Alphonse Thomas had held the Red Sox to four hits, winning 7 to 1, Slim Harris of the Boston staff re-fainted with another fourth-inning effort and blanked the White Sox, 2 to 0.

Fifteen healthy hits, including a homer by Gehrig, enabled Washington to trim Detroit, 11 to 7.

Allen's single in the tenth gave Adolfo Luque of Cincinnati a 4 to 3 win over Brooklyn after the Dodgers had tied it up in the ninth. Dizzy Vance yielded but four hits and fanned seven men in the blue uniforms he worked.

SECRETARY OF CLUB HELPS OUT MANAGER, BUT IS NOT SO GOOD

Directors; Tierney Makes Decisions

By DAVIS J. WALSH

NEW YORK, Sept. 17.—The New York Giants, apparently due to finish eighth in the National league stakes, have acquired a new manager, an unofficial but strictly solid one, according to more or less reliable gossip around the ball club today.

John J. McGraw still is with the outfit but they say his managerial of two hours have been slightly curtailed. He used to give 24 hour service on the job; now the word is that he is a very successful manager in the hours of three and six of an afternoon when the club is on the battlefield.

During the remaining hours of the day, it seems, James J. Tierney, the club secretary, goes obligingly on duty in Mr. McGraw's stead, issuing orders that are needed and making decisions that are not.

One of these, they say, resulted in the famous transfer of Rogers Hornsby to the Boston Braves. Those associated with the Giants will tell you that, if Tierney didn't swing that one, he swung the man who did and that that man isn't called John McGraw even by those who don't know him.

Sent Grimes to Blues
Another deal for which Tierney is held accountable is that which saw Burleigh Grimes move to Pittsburgh and win more than 20 games this season and was made over McGraw's veto.

Joe Aldridge, who has been a conspicuous move: first to the Giants; second, to Newark, of the International league. This transaction is said to have been a strictly personal triumph of Tierney's.

The deal, they say, was almost closed before McGraw heard about it and later was carried through against his protest. Aldridge immediately rewarded his new connection by holding out for \$3,000 more than he had received in Pittsburgh. He didn't report at the training camp and, when the season opened, he still was conducting a long range vendetta with the business office. The net result was that Aldridge lost his first month's salary and the Giants a good right-hand pitcher.

For, except in the first game he pitched where he was beaten by one run, he fanned utterly as a Giant and finally had to be waived out of the team.

The man who goes about wishing that he had never been born is not the only one who regrets it.

WEDNESDAY IS FINAL DAY TO CAST VOTES ON ALL-MARION NINE

Deciding Game of Series Will Be Played at Park Tonight

JUST two more days in which to send your All-American recreation ball team to the sports editor of The Star. Make out your list tonight and mail it to The Star right away because Wednesday is the last day.

A large number of teams have been sent to The Star from interested fans and many more are expected by Tuesday.

At 6:10 o'clock tonight the final and deciding game of the little world's league.

The Hornshy deal, a laundry check as far as the public was concerned, might have turned out worse, considering that Hornshy has proved a first class catcher to save nothing of the fact that the club would have gone nowhere at a faithful clip if it hadn't had Walsh to move into centerfield when Hornshy collapsed.

However the success or failure of two major deals is beside the point, which is that they were alleged to have been made over McGraw's veto. In brief, he seems after all these years to have finally succeeded in becoming an employee of the Giants. It was different, much different, in better days. He was the Giants then.

series will be played at Lincoln park between Calvary and Eagles. The two teams are all even in games won and lost.

Unless it rains, fans will get their last chance of seeing the stars on the two outstanding Marion team perform tonight. After this tray a rush of entries for the All-Marion team is anticipated.

Here is one's fan idea of what players should receive this honor that was picked at random from this morning's mail.

Player	Position	Team
Wolfe	Catcher	Epworth Jrs.
Bacon	Pitcher	Eagles
Cram	1st base	Epworth Jrs.
Low	2nd base	Eagles
Lattimore	3rd base	Epworth Jrs.
Fisher	Short	Epworth Jrs.
Robertson	Left	Calvary
Neimeyer	Center	Calvary
Mewenger	Right	Calvary

MEETING TONIGHT

Industrial Bowling League To Be Formed For Season

Captains of industrial bowling teams will meet tonight at the Marion Recreation Annex, South Prospect st., to organize a bowling league. At least 10 teams are expected to enter. Plans are also going ahead to form a church and fraternal league. Those interested can get details from the manager of Marion's new bowling alleys.

BUYS PLAYERS

New York, Sept. 17.—The Brooklyn baseball club has purchased Nick Gutlof, former outfielder of the New York Yankees, from the Atlanta, Ga., club. The Robins also have obtained Pitcher Jim Richardson from the New Haven, Conn., team in the Eastern league.

HENRI COCHET WILL TAKE ON HUNTER IN FINALS OF TOURNEY

Past Records Point to Victory for Frenchman; American Has Chance

FOREST HILLS, N. Y., Sept. 17.—Henri Cochet, champion of France, and Francis T. Hunter, of New Rochelle, N. Y., veteran Davis cup star and ranking No. 2 on the American list, will clash this afternoon, western permitting in the final round for the national singles lawn tennis championship of the United States. Records and past performances indicate victory for the tight-lipped little Frenchman, but Hunter, having defied every tradition of the game in blasting his way through to the final round by a brilliant succession of sensational victories, may very easily cap the climax by trouncing Cochet to prevent the 1928 title from journeying across the Atlantic as did in 1926 and 1927 championships both of which are captured by Rene Lacoste, ranking No. 1 in the list of the world's tennis masters.

Cochet, victor over both William T. Tilden and John Hennessey in the Davis Cup matches at Auteil early in the summer, and regarded as one of the most brilliant singles players the game has ever seen, has everything in his favor to succeed Lacoste as champion of the United States. His game has never been better than in his quarter final and semi-final matches against Gregory Mangin and Frank Shields.

Higher Commodity Prices Bring Demand For Stocks

ACTIVITY GROWS IN INDUSTRIAL ISSUES

Offering of Call Money at 6 1/2 Per Cent Also Important Factor

EASIER MONEY SEEN

Prices of Several Leading Stocks Establish New High Marks for Year

BY W. S. COUSINS
I. N. S. Financial Editor

New York, Sept. 17.—Stiffening prices for important American commodities, including steel, copper and oil, was reflected today in an active demand for the stocks of representative industrial companies. Offering of call money at 6 1/2 per cent in the outside market was also a factor of importance, though the market was accurately forecast and it is Wall Street's expectation that an easier money market will prevail over the next few days.

Local and long distance buoyant movements in the motor, steel and oil shares at the beginning of the new week signified the resumption of enormous public and professional buying over the weekend. The professionals hastily garnered all of the initial offerings of Anaconda Copper, Studebaker, U. S. Steel and other speculative favorites, in most cases prices establishing new high records for the year. The amusement stocks jumped spectacularly, recovering the bulk of the losses sustained in the closing sessions of last week.

Goals Reached

The advance of copper metal price to 15 cents a pound; lead to 8 1/2 cents a pound and pig iron to \$19.50 to \$20 a ton at the western producing points meant the reaching of goals which have long been the objective of the respective industries. Copper at 15 cents means the widening of the profit margin for the low-cost producers, of which Anaconda and Chile are the most prominent. Cerro de Pasco was also a good ground-gainer and sold close to 16.

Bulls in the industrial stocks concentrated heavy buying orders behind American Can and U. S. Steel. Can sold up 4 points at 111 and steel common finally topped 100, though at that point the stock encountered heavy profit taking and no further advance could be made.

Coffee Market

New York, Sept. 17.—Raw coffee futures opened firm today at an advance of 6 to 11 points, March sold at 15.71, May 15.51, July 15.22 and September 15.28.

Cotton

New York, Sept. 17.—Cotton opened firm today at an advance of 6 to 10 points, December sold at 17.40, January 17.43, March 17.42, May 17.42 and July 17.49.

2 HELD FOLLOWING ATTACKS ON WOMEN

LANCASTER POLICE AND CITIZENS PATROL STREETS; VICTIMS TO VIEW MEN

Lancaster, Sept. 17.—Although two men, one an unidentified tramp and the other an alleged periodic patient at the Athens state institution for the insane, were being held at the city jail here today, armed men patrolling Lancaster streets and determined police scouring the countryside today attended to the bad case of "Kettles" which has affected this territory following two vicious attacks on women in this vicinity.

Police yesterday arrested Isaac Kettles, 40, said to have been under treatment at the Athens institution at different times for mental derangement. Kettles is being questioned in connection with the attacks as is a tramp who was also arrested and lodged in jail here.

An excited crowd of men and women thronged about the jail last night when the arrests became known. No effort made to take the suspects from the jail, although feeling ran high and threats were freely breathed.

Mrs. Ravenna Hayes and Mrs. Perry Smith, the latter an expectant mother, were to view the two men today.

Both women were attacked by a snaked prowler last week. Mrs. Hayes suffered so from shock that, after one piling scream, she lost the power of speech and is still under treatment by physicians.

All roads leading into Lancaster are being carefully watched. Countryside police have augmented the search in the city and national guardmen are assisting in the widespread dragnet.

If cold light could be developed, 20 times as much light would be obtained from the same amount of electricity as now.

EDWARD C. STOKES, once governor of New Jersey, says that Governor Smith, if elected, COULD change the prohibition law, no matter what anybody says.

He could "appoint supreme court justices whose opinions run with his mind." And those justices could make the Volstead law and the eighteenth amendment ineffective.

That opinion will stir up militant drags.

FEAR LOSS OF LIFE IN COAST CITIES

Greatest Danger Reported To Center at Palm Beach and Fort Pierce

porting injured, and perhaps some killed when houses and buildings were unroofed and ripped apart by the hurricane.

Damage will reach millions of dollars in property, public utilities and fruit crops, it was conservatively estimated.

The damage was said to have been particularly heavy at Fort Pierce, Fort Lauderdale and the Palm Beaches of the East coast, and also west of Sebring.

May Recurve, Is Belief

The local weather bureau said there was a possibility that the hurricane might recurve. Considerable uneasiness was felt here when wire communication to Miami was suddenly disrupted this morning. Just before this, Miami reported fresh high winds.

The hurricane was reported central over the Florida peninsula shortly before noon, just east of Tampa, but whether it will go up the West Coast and hit Apalachicola or blow into the gulf of Mexico, and recurve was not certain here.

SMITH STARTS ON INVASION OF WEST

Special Train Carries Presidential Nominee into C. O. P. Territory

Continued From Page One

Five that where goes the LaFollette vote of 1924—more than five million of them—there in all probability goes the election. LaFollette carried but one state, his own Wisconsin. Yet his vote in the five other states on the Smith schedule was sufficient, that, combining with the Davis vote it exceeded that of Coolidge, notwithstanding the great Republican sweep of that year.

Feeling confident in the East and secure in the South, notwithstanding the dry disaffection and religious split, the Democratic "beatniks" believe they can hold the normal Democratic vote of the West and win the LaFollette vote of 1924 the election of Governor Smith is not only possible but distinctly probable. Such at any rate is the broad outline of Democratic strategy upon which this western trip of Governor Smith's is based.

Well Equipped Train

There was little about the Smith special today as it sped through western New York and Ohio that was reminiscent of the Democratic campaign of other years. This year for the first time in many years the Democratic way chest is well filled. Where Cox in 1920 and Davis in 1924 struck westward on regular trains, sometimes with a dinner and sometimes without, Governor Smith headed toward the Mississippi today in one of the most completely equipped and luxurious trains that ever whistled by a water tank.

It consists of 11 cars back of the engine, and its personnel runs almost to a hundred persons. Considerably more than half of these, however, are correspondents and photographers. The political correspondents alone number 40 and there are a dozen camera men. They occupy three cars in addition to one set given over entirely to working quarters for them. Nothing like the arrangements for the number of newspaper correspondents has ever been seen before on any political or campaign trip, presidential or otherwise.

There is even a special radio announcer who will present at the "smoke" and make the introductions at all the national hook ups where Governor Smith speaks. There are typists, stenographers, messengers and what not.

No Stops Planned

The train is running a special with no stops, other than operating stops. Before Chicago, which will be reached tonight at 8:30 p. m., it will be switched there from the New York Central tracks to the Chicago North-Western tracks for the journey to Omaha.

The Albany "home folks" say the governor's routing send-off early this morning. Street fares of red fire burned from the executive mansion on Eagle at to the station, and thousands cheered him as he swung jauntily aboard the train wearing the well-known brown derby. The train left a few minutes after midnight.

ENTERS OHIO

Smith Special on Lake Shore Route, Due in Toledo at 3 p. m.

Columbus, Sept. 17.—Bearing Governor Smith to Omaha, first objective in his campaign to invade the western farm belt, the "governor's special" was steaming through Ohio today. The train was scheduled to arrive at Toledo at 3 p. m., traversing the Lake Shore route passing through Ashland, Painesville, Cleveland, Lorain, Sandusky and thence into Toledo.

The Canadian department of agriculture has placed in effect new regulations covering the grading of apples, peaches, tomatoes and grapes.

BARBERS MEET

Columbus, Sept. 17.—Members of the Federation of Barbers were at the opening session of the forty-third annual convention of the Ohio Federation of Barbers today after holding an all day session Sunday when officers were elected, and a proposed state barber bill discussed.

REPORT FURY OF STORM UNABATED

Toll of Florida Hurricane Unknown as Stricken Area Is Cut Off

Continued From Page One

Indianapolis, Sept. 17.—Gov. Horace Towner described the devastation in Porto Rico.

He reported one half of the houses in the island were destroyed, which would mean 700,000 homeless. He appealed for immediate aid.

A navy supply boat is being loaded in New York with provisions for Porto Rico and an army transport and a freight transport have been ordered to San Juan with badly needed food supplies.

Toll Uncertain

Washington, Sept. 17.—Reliable estimate of the loss of life in the Porto Rican hurricane disaster can not now be made. Gov. Horace Towner advised the war department today.

"The loss of life is greater than at first reported, but no reliable estimates can be made at present," he said.

There were no casualties among the American troops stationed in Porto Rico, Towner stated.

DEATH TOLL MOUNTS

Six More Bodies Found in Wreckage at Rockford, Ill.

Rockford, Ill., Sept. 17.—The death toll of the tornado that swept Rockford's industrial section Friday mounted to 14 today with the finding of six more bodies in the ruins of factory "C" of the Rockford Chair & Furniture Co.

The victims were Gunnar Ryden, August J. Peterson, Olaf Larson, Martin Anderson, Herman Wendell and one unidentified man.

Rescue workers found the bodies in the wreckage of the northwest stairway, where most of the employees sought to escape when they saw the twister coming. Workers with steam shovels and tractors are working frantically to recover one more body believed to be still buried beneath the mass of twisted debris.

Rockford has started the work of reconstruction. Walter E. Burwell, president of the Rockford Chamber of Commerce, called a special meeting of his organization today to formulate plans for a humane program to assist families to reconstruct the property damage. The damage done by the tornado is estimated at \$1,500,000.

REPORT TWO DEAD

Message Lists Toll at Ft. Lauderdale; Property Damage Heavy

Washington, Sept. 17.—Two lives were lost and heavy damage was done by the hurricane at Fort Lauderdale, Fla., it was reported in messages received here today from naval headquarters at Key West, Fla.

Capt. Robert W. McNeely, commandant, requested authority to call out naval reserves in Miami, Fla., to relieve local police, who would be sent to Ft. Lauderdale for duty. Capt. McNeely radioed:

"Unconfirmed reports place loss of life at Ft. Lauderdale at two persons. No railroad operating north out of Miami at 10:05 a. m. Hear Jupiter calling but he has not heard us. Have sent naval reservists toward Jupiter by auto from Miami."

If an American firm does not wish to register under the laws of the province, it may still do business under the laws of Canada, either by incorporating a local company under the laws of the separate provinces or by forming a company under the laws of the dominion.

166TH INFANTRY TO PARADE HERE

Will Visit City Tuesday Night. Headed by Band; Honor Local Companies

In honor of the showing made at Camp Perry during the past several years by Company D and the Howitzer company of the 166th Infantry, Marion, a parade and serenade by the 166th Infantry and band will be held here Tuesday night, according to an announcement made today by Capt. John W. Mason, of Company D.

More than 500 National Guardsmen comprising the 166th Infantry with companies from Columbus, Delaware, Maryland and Marion will participate.

The 166th Infantry band is one of the outstanding army musical organizations of the state. It is composed of 65 pieces.

The parade will get under way from the courthouse at 8:15 o'clock and will move west on Center st. to Prospect. The balance of the line of march follows: south on Prospect st. to Church, east on Church to Mt. Vernon av.; east on Mt. Vernon to Greenwood st.; north on Greenwood to Center st. and west on Center to the courthouse.

After returning to the courthouse a short band concert will be played. The parade will then reform and march to the Marion theater, where the members of the regiment will be guests of the theater management. The band will play on selection at the theater. Following the show the guardsmen will go to the Rendezvous Baroque and Tourist camp west of here on the Harding highway where they will be entertained by the management.

Members of the fire department and the police force will be invited to participate in the parade, it was announced by Captain Mason. Merchants are urged to display flags.

wireless tower had gone, and that further messages would be impossible. Shortly afterward the Charleston, S. C., naval radio relay reported "not a word from Jupiter. Station probably out."

The Western Union reported at midnight that one wire was working to Miami from Atlanta, Ga., but that below this point there were no wires. Messages northward from Miami flooded the wires, it was said, telling relief men over the country of safety in Miami.

Wind Is Terrible

The wind whirled through the southeast at varying velocities, according to the weather bureau, some sections reporting as high as 100 mile blows, while others reported 85 and 90-mile speeds.

Tampa, half an hour before midnight, notified the navy that a 100-mile wind was lashing its shores, and that people were preparing to leave.

St. Petersburg reported a grim second anniversary of the 1926 storm. A hail of rain from this city declared rich citrus growing sections of the state would be laid waste and that a sugar plantation thousands of acres in size would be ruined. Thousands of acres of orange and grapefruit groves were also in the path of the hurricane, it was said.

Meditations OF A Married Woman

BY HELEN ROWLAND

Mixed Drill

Some men are born liars, some acquire the art of lying, and some have lying thrust upon them by suspicious wives, weak wives or curious wives.

A married man's manners in company are usually more charming and polished than a bachelor's—probably because they get so little wear and tear around the home.

A woman can usually spot a big, black hat; it's all the little pink and blue pastel ones a man tells that confuse her.

Many a hard-working girl's smart business clothes are bought with blood money—the blood she loses by substituting a chocolate soda for a roast beef sandwich at lunch.

Lament of a Popular Novelist

I'm tired of writing erotic
And trivial nonsense like this;
For love is to me a parrot,
And marriage a dubious bliss.
I'm tired of youth and its phrases
As a subject of endless dissent;
Of sex and its mazes and crazes—
But, darling, I must pay the rent!
I'm tired of flappers and petting;
But why all this fuss? and fretting
As long as the dollars roll in?
There are times when I'd like to defy it
And write what I know is the truth;
But heavens, the public won't buy it!
They only want books about
YOUTH!

I am weary of each variation
On the subject of love! But, my sweet,
It's either write THIS—or starvation!
And Lord knows a writer must EAT!

ROME PLANE READY FOR OCEAN FLIGHT

Cesare Sabelli Announces Craft Will Take Off for Rome Today

Old Orchard, Me., Sept. 17.—The Rome, Cesare Sabelli's giant seaplane, was poised on the sandy beach here this morning, fueled and loaded for its attempt to make a non-stop flight to Rome.

Following receipt of advice from New York that ideal flying weather was predicted for the next few days, Sabelli announced he would take off today at some time between 10:30 o'clock this morning and 5:00 o'clock this afternoon. The start was waiting upon the arrival of Pierre Bonelli, navigator and radio operator, from New York.

Roger Q. Williams will act as chief pilot and Dr. Leon F. Piercilli will be the fourth man aboard.

The ship will carry 1150 gallons of gasoline. Some 3,500 miles of the 4,200-mile trip to the Italian capital must be made over open water. Sabelli said he hoped to complete the journey in about 45 hours.

aboard bound for Porto Rico under orders of Admiral Hughes, chief of naval operations and acting secretary of the navy.

A. L. Schafer, of the national Red Cross headquarters staff, with six trained assistants were due to arrive in Jacksonville today to organize the relief activities in Florida. This force will be augmented by Miss Ruth E. Mettinger, Red Cross nursing field representative in Florida, and Red Cross chapter workers in Jacksonville.

The national Red Cross, which on Saturday set aside \$50,000 from its emergency relief fund for the hurricane relief activities, today was receiving pledges of additional funds from Red Cross chapters throughout the country. These were in response to the appeal broadcast Saturday to the 5,000 chapters scattered across the United States. The appeal has been broadcast by radio, through the press and from the pulpit.

Coast Guard headquarters here was prepared today to rush cutters to patrol either coast of Florida or to the Gulf where their assistance might be needed.

Canada's imports from the United States in June were valued at \$75,472,000.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

FREE DEMONSTRATION

Stuart's Plapao-Pads are different from the truss, being mechanic-cher copulators made self-adhesive purposely to hold to the distended muscles. No straps, buckles or springs attached—cannot slip, so cannot chafe or press against the public bone. During 22 years thousands have successfully treated themselves at home—without hindrance from work—most obstinate cases conquered. Soft as velvet—easy to apply—inexpensive. Awarded Gold Medal, Rome; Grand Prix, Paris and Honorable Mention, San Francisco. Process of recovery is natural, so no subsequent use for truss.

MCCORMICK-DEERING BROADCASTER

"Good Equipment Makes a Good Farmer Better"

In the past many of our customers have become mighty good and congenial friends. We like to think of so many of them as friends rather than customers. Business may be hard-boiled but we do not think so. For us, if you would take friendship away from business there wouldn't be much left.

A boss is a man who arrives at the office early when you are late, and late when you are early.

CORN BINDER

A feature which perhaps is of greater importance than the inconvenience of handling loose stalks is getting the corn out at just the right time. To make good ensilage, corn must be delivered as soon as possible from the field to the cutter. With wages high, the cost of cutting corn by hand is too great to be practical. A McCormick-Deering corn binder will reduce the cost of cutting, will hand the bundles making them easier to handle, and keep pace with the ensilage cutter. They are made to give long satisfactory service. They are easily operated because made almost entirely of steel, and the revolving parts subject to any amount of friction, are equipped with roller bearings. Order your McCormick-Deering Corn Binder now.

Don't forget that a farm implement will work 50% better if all its parts are new and efficient. A word to the wise: Insist upon genuine I. H. C. repair parts.

FATHER OF NINE CHILDREN KILLED

Man Meets Death in Auto Crash; Wife Seriously Injured

Delphia, O., Sept. 17.—The tragedy had entered the home of Mrs. Vera Siebert, mother of nine children, here today following the death of her husband, Elmer Siebert, who was driving a machine when it was struck by a car of Walter Tabor, also of this city.

Five of the children were at the time of the crash. Mrs. Siebert was taken to Union hospital, suffering from a broken rib, bruises and lacerations. Two of the children, Helen, 11, and Loretta, 8, sustained minor bruises.

IS CELEBRANT

Classmates Are Guests at Dinner Honoring Anniversary

Caledonia, Sept. 17.—Mrs. Mollie Rinker entertained the girls of the junior class at dinner Thursday evening celebrating the sixteenth birthday anniversary of her daughter, Lucille. Appointments and favors were in pink and white, and a cake with sixteen pink candles formed part of the decoration.

Margaret Clary, a former member of the class, recited an original poem during the dinner hour. The celebrant was presented a beautiful piece of silk by her classmates, and the party was entertained with vocal and instrumental music.

Mrs. Rinker was assisted in serving by Miss Fern Rinker who will leave soon to make her home in Canton. Class members present were Leona May, Leona Pace, Ethel Fink, Naomi Clouse, Leontine Swisher, and the honored guest, Lucille Rinker.

VIEWS OF MEMORIAL IN SUNDAY NEWSPAPER

Two beautiful views of the Harding Memorial tomb were shown in the retrospective section of Sunday's Cleveland Plain Dealer.

One showed the exterior of the tomb, while the other was an interior view, showing the graves of President and Mrs. Warren G. Harding.

As the nights grow cooler it is essential that Rosalie have a wrap that looks and feels warmer than a chiffon or scarf. So you see her wearing a cape formed entirely of uncurled ostrich feathers. It is called a Robinson Crusoe cape but since that famous adventurer's island was reputed to hold only a couple of cats, a dog, a parrot and some goats besides himself and Friday Rosalie wonders why he deserves to have an ostrich feather cape named in his honor. He should have had at least one ostrich in his menagerie.

PAYS \$200 FINE

Marionville Man Released After Payment of Fine and Costs

Marionville, Sept. 17.—Entering a plea of guilty to charges of possessing intoxicating liquor, Payton Printz, Marionville, was fined \$200 and costs by Judge E. W. Porter in common pleas court here Saturday. He paid his fine and was released.

Two other men, Louis Parthemer and Earl Montgomery, also of Marionville, nabbed by officers at the same time of Printz's arrest, pleaded not guilty to charges placed against them and were released on a bond of \$500 each. Date of their trial has not yet been set. Parthemer is charged with possessing intoxicating liquor and Montgomery is charged with transporting liquor.

The three men were arrested in Allen township last Thursday by State Probation Officer V. D. Wade and Sheriff J. B. Lingrel.

G.O.P. NOMINEE TO MAKE BID TO LABOR

His First Invasion of Territory Conceded To Be Smith Stronghold

IN NEWARK TONIGHT

Hoover Expected To Address Vast Number of Voters on Motor Tour

BY WILLIAM H. HUTCHINSON
Star Staff Writer

Washington, Sept. 17.—Herbert Hoover today began the first of three personal drives to win the industrial west to his banner.

The Republican nominee will tour New Jersey by motor this afternoon and tomorrow, with a speech tonight at Newark. On his trip, his managers expected him to come into personal contact with from 500,000 to 1,000,000 of New Jersey's inhabitants.

The trip will mark Hoover's first invasion of the territory in which his Democratic rival, Gov. Alfred E. Smith, has been conceding great strength. By a coincidence, it comes at a time when Smith has left to invade the Middle West where Hoover has been granted a similar concession.

Bid to Labor

In his address tonight, Hoover will make his great bid for the support of organized labor. He will elaborate upon the policies laid down in his acceptance speech and in the Republican platform, and his efforts will be directed toward holding the workers of the East in the Republican ranks.

Hoover was due to reach Newark at 1 o'clock eastern standard time. He was to be met by a parade of automobiles, which he will join for a tour of Newark, the nearby Orange and Mountclair. Later in the afternoon, he will visit Mr. and Mrs. Thomas A. Edison at their home in Menlo park.

At 5:30 the nominee will attend a reception in Newark, where he will meet the Republican leaders, whose duty it will be to keep the state in the Republican column in November. After that, he will drive privately and rest for the speech in the first regiment armory at 8 o'clock, eastern standard time.

Will Visit Edison

After his address, Hoover will motor to the Edison home to spend the night with the electrical wizard. Over the weekend, Edison issued a statement, declaring his allegiance to Hoover. The inventor revealed that some newspapers had stated he was for Smith and he said he wished to correct this error.

Hoover takes an active program for tomorrow. He first will visit the Newark municipal airport early in the forenoon. Then he will lead another motor caravan on a tour of northern New Jersey cities. His itinerary will carry him through Jersey City, Hoboken and Weehawken and intervening places. At 1 o'clock, he will lunch in Newark at a party given by Senator Walter L. Lake to the 10 public in county chairman of New Jersey.

A third motor tour will follow, on which Hoover will visit Princeton, Elizabeth and Trenton. He will reboard his train at Trenton at 7 o'clock for the return trip to Washington.

Thus far in the campaign, the nominee has had little to say about labor's problems, except to reaffirm the party platform's declarations favoring collective bargaining and a protest against discriminate use of the injunction in labor disputes. This apparently did not satisfy labor leaders, so the speech tonight was arranged.

Worked Way Up

Republicans, however, have sought to appease labor in their campaign literature, which points out that Hoover has earned his own living "with his hands" since he was 12 years old. It describes him as the leader of the movement for the eight hour day in the steel industry and that he always has favored restrictive immigration as a means of aiding American workmen to maintain a decent wage scale.

In his acceptance speech, he summarized his personal attitude in these words: "Having earned my living with my own hands, I can not have other than the greatest sympathy with the aspirations of those who toil."

IS SHE STUPID

OR JUST THE VICTIM OF YOUR CARELESSNESS?

That girl of yours! You're so proud of her! You have so many plans for her future. She is so popular, accomplished, brilliant.

And yet—she may be just "getting by" in school, her studies a nightmare to her. Already she may be suffering from the jitters of her classmates.

Is she stupid? Not necessarily. Perhaps she is merely defective in vision. Three out of every four "slow" school children have poor eyesight. It is an unfair handicap. If she fails, it is YOUR fault—she will be the victim of YOUR carelessness. Be fair! Have her eyes examined.

Give your child a chance.

An engineering triumph in Quality! A production miracle in Price!

CROSLEY

RADIO RECEIVERS FOR 1928-9

The world has never seen such radio values! Why? Because organization, resources, patents, inventions, experience and man-power are combined in The Crosley Radio Corporation as they are in no other radio concern. Crosley Engineers and laboratories are the best money can buy. Crosley factories are models of most production. Every move in making a Crosley radio has been studied to make it the least costly in way. Tremendous savings are PASSED on to you, the buyer. So truly wonderful are the new Crosley radios that we offer Crosley AC Electric Receivers without hesitancy and in competition with any radio made, AT ANY PRICE.

8-TUBE SHOWBOX
A.C. Electric. A completely shielded, genuine neodymium with push and pull amplification, utilizing 8 tubes including rectifier. 180 volts on last stage. \$80

6-TUBE GEMBOX
A.C. Electric. The Crosley Gembox is the first A.C. set to be offered at such an astonishing price. Genuine neodymium with 6 tubes including rectifier. 135 volts on last stage. \$65

6-TUBE BANDBOX
Storage battery operation. The Crosley Bandbox is completely shielded, has accumulators for sharp tuning on distant stations, the modern illuminated dial and all of the modern features which have made it the most popular radio set of the past several years. \$55

6-TUBE BANDBOX, Jr.
Dry cell type. Small and compact, readily portable, economical to operate. The added range of radio frequency, makes the Bandbox, Jr., more sensitive, bringing in distant stations with volume. \$35

DYNACONE
The Crosley Dynacone makes use of the D.C. plate current to energize the loud magnet, giving true dynamic type with greatly improved tone and volume. \$25

MUSICONE
The Type D Musicone. It can be used as any Crosley set and will give a good account of itself with any set on the market. It stands alone in the field of magnetic speakers and is priced accordingly. \$15

Daily Demonstrations at Our Store

Test, try, prove to your own satisfaction the VALUE of Crosley receivers. Listen, quietly—without prejudice—make up your OWN mind. Could anything be fairer? You be the judge. There is no broader way of selling. There is no finer radio to sell.

Again organization triumphs! Experience and resources combine to produce an industry's greatest values! An engineering achievement becomes a production miracle!

Crosley radio is presented to you this season packed with features NO ONE OTHER radio can compare.

1. Genuine neodymium circuit.
2. Full voltage on output tube plates.
3. Modern illuminated dial.
4. Pushing volume control.
5. Complete shielding.

NO MORE GAS FROM INDIGESTION

Stomach sufferers can only get safe, quick and lasting relief from gas, sourness and indigestion pains by correcting their cause—"too much acid." The stomach needs an alkaline to neutralize its excess acid, sweeten its food contents and make digestion normal and painless. A safe, reliable treatment is Disburated Magnesia—powder or tablets. Just a little after every meal stops all chance of indigestion and guarantees stomach comfort or money back. Henney & Cooper and druggists everywhere sell it on this understanding. Begin today to enjoy your food after as well as during meal time. A test will tell. Adv.

Progressive Times

In this time and age when new ideas make the world run smoother, faster and more accurate, it was left to the food dealers to try harder to satisfy the appetite and the delicate stomach that provides the more efficient and accurate incentive brains.

We are certain that the food stuffs served by us are very appropriate for muscular as well as fine brain tissues.

Our sandwiches and salads will create and satisfy any delicate appetite.

COUNTY EDUCATORS HEAR CONGRESSMAN

Nearly 200 Teachers Assemble for Bi-Monthly Meet at Mt. Gilgud

Mt. Gilgud, Sept. 17.—"Children 40 years from now will be influenced more by what you do as teachers now than by what they get out of books," was the statement made Saturday by Congressman Brooks Fletcher in addressing the teachers of Morrow county in the first of a series of bi-monthly meetings scheduled this year by County Superintendent H. O. Hanna. "It is not the laws and legislation that makes America great, but its education," said the speaker. "Every community is an autobiography of the people that live there." In addressing the teachers he said, "What you are is partly what they are going to be."

Nearly 200 people heard Prof. John L. Clifton, state director of education, give an address on "Learning Process." He heartily urged all teachers to attend the meetings scheduled this year. His talk was full of humor, and in one instance he said, "People that can keep their ignorance from other people are educated," and followed this statement up with the example, "Especially urged the teachers to accept what the child knew and build on that."

Increasing the importance of reading, Dr. H. J. Norris, Cleveland gave an interesting exposition on the value of doing this. Two solos were given during the program by Mrs. Brooks Fletcher and Mrs. Mollie Vossel, of Kenton, also sang two numbers. Music was furnished by the Chesterville orchestra and the Mt. Gilgud High school band.

Each superintendent present was called on to give a short talk. During the program County Supt. H. O. Hanna stated that Ohio has been increased from fifth to third place in school efficiency during the last 12 years.

MERCURY SLIPS
Fair And Cooler Weather Scheduled By Weatherman
Sunshine at noon today and a forecast of "fair tonight and Tuesday; cooler tonight," but fair for pleasant and somewhat cooler weather tonight and tomorrow.
After several days of unusually warm weather the temperature yesterday stayed at around the 80-degree mark and dropped to 59 degrees at night. At noon today the mercury had only reached 66 degrees, believed to be the summer's lowest recorded mid-day temperature.
A year ago the thermometer showed an 86 degree high and 64 degree low. Many a college owes its fame to its football team.
